# Traveler Wellbeing Index (TWI)

Behind every data point is a **person**

**TWI**

**Traveler Wellbeing Index**  
*A numerical approach* to calculating and measuring the impacts of travel on employees' wellbeing and experiences

**CO2**

**CO2 Enhanced reporting**  
Best-in-Class method calculating air, hotel, rail and car rental emissions.

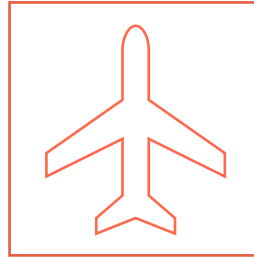

**Cost**

**Our legacy expertise**  
Cost, compliance, and savings consulting & optimization

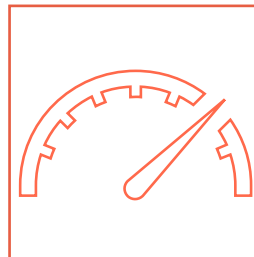

# Traveler Wellbeing Index

*How it works*

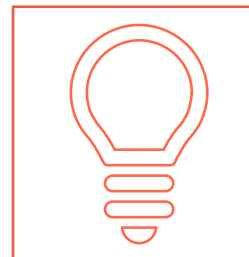

Identified aspects of a trip that impact traveler wellbeing & experience

Developed a quantifiable scoring system to measure impact of travel on employees

Customize parameters based on company's wellbeing definition

Apply methodology to client specific data to gain relevant insight and monitor wellbeing.

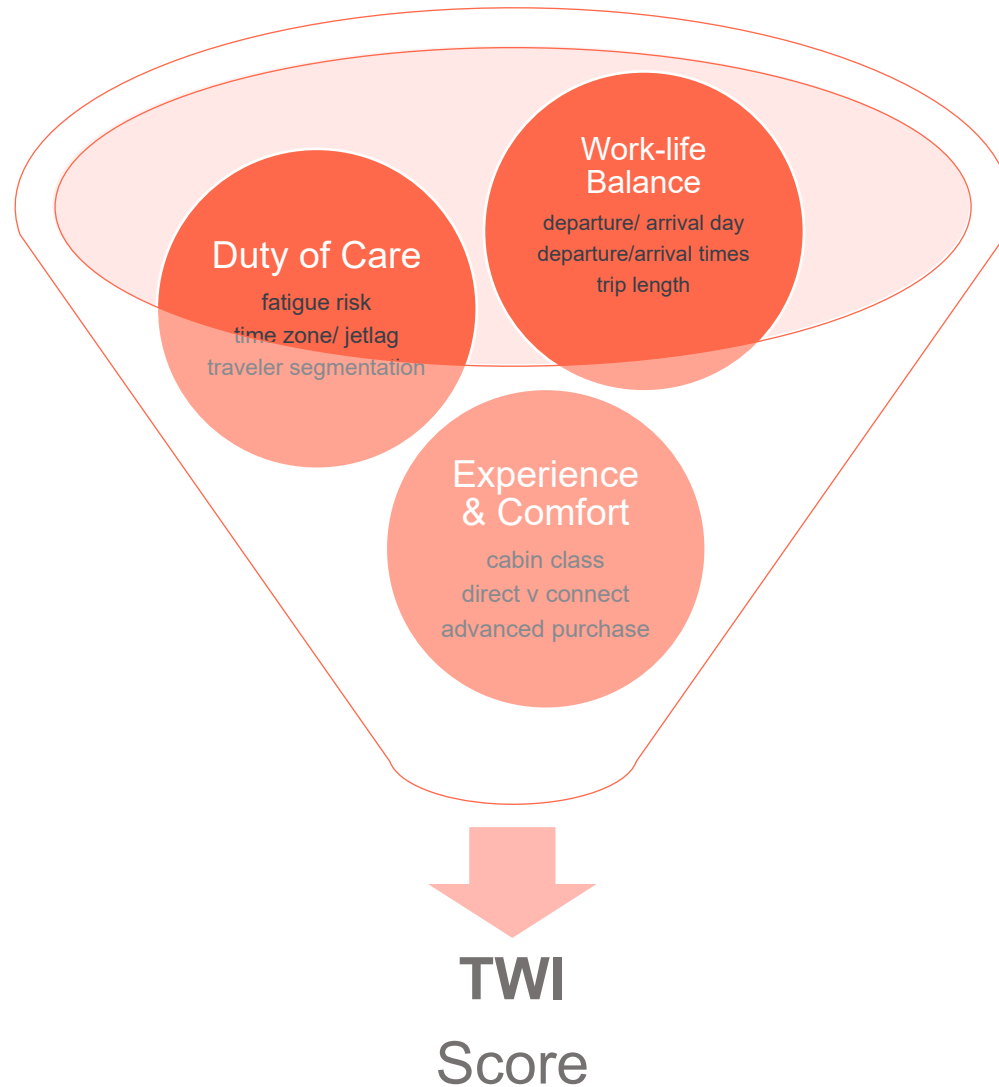

We've created a robust methodology based on scientific research and studies on the impact travel can have on employees...

... with the capability to tailor to a company's unique travel patterns and apply to transactional level data for premium insights

# Traveler Wellbeing Index

## Methodology

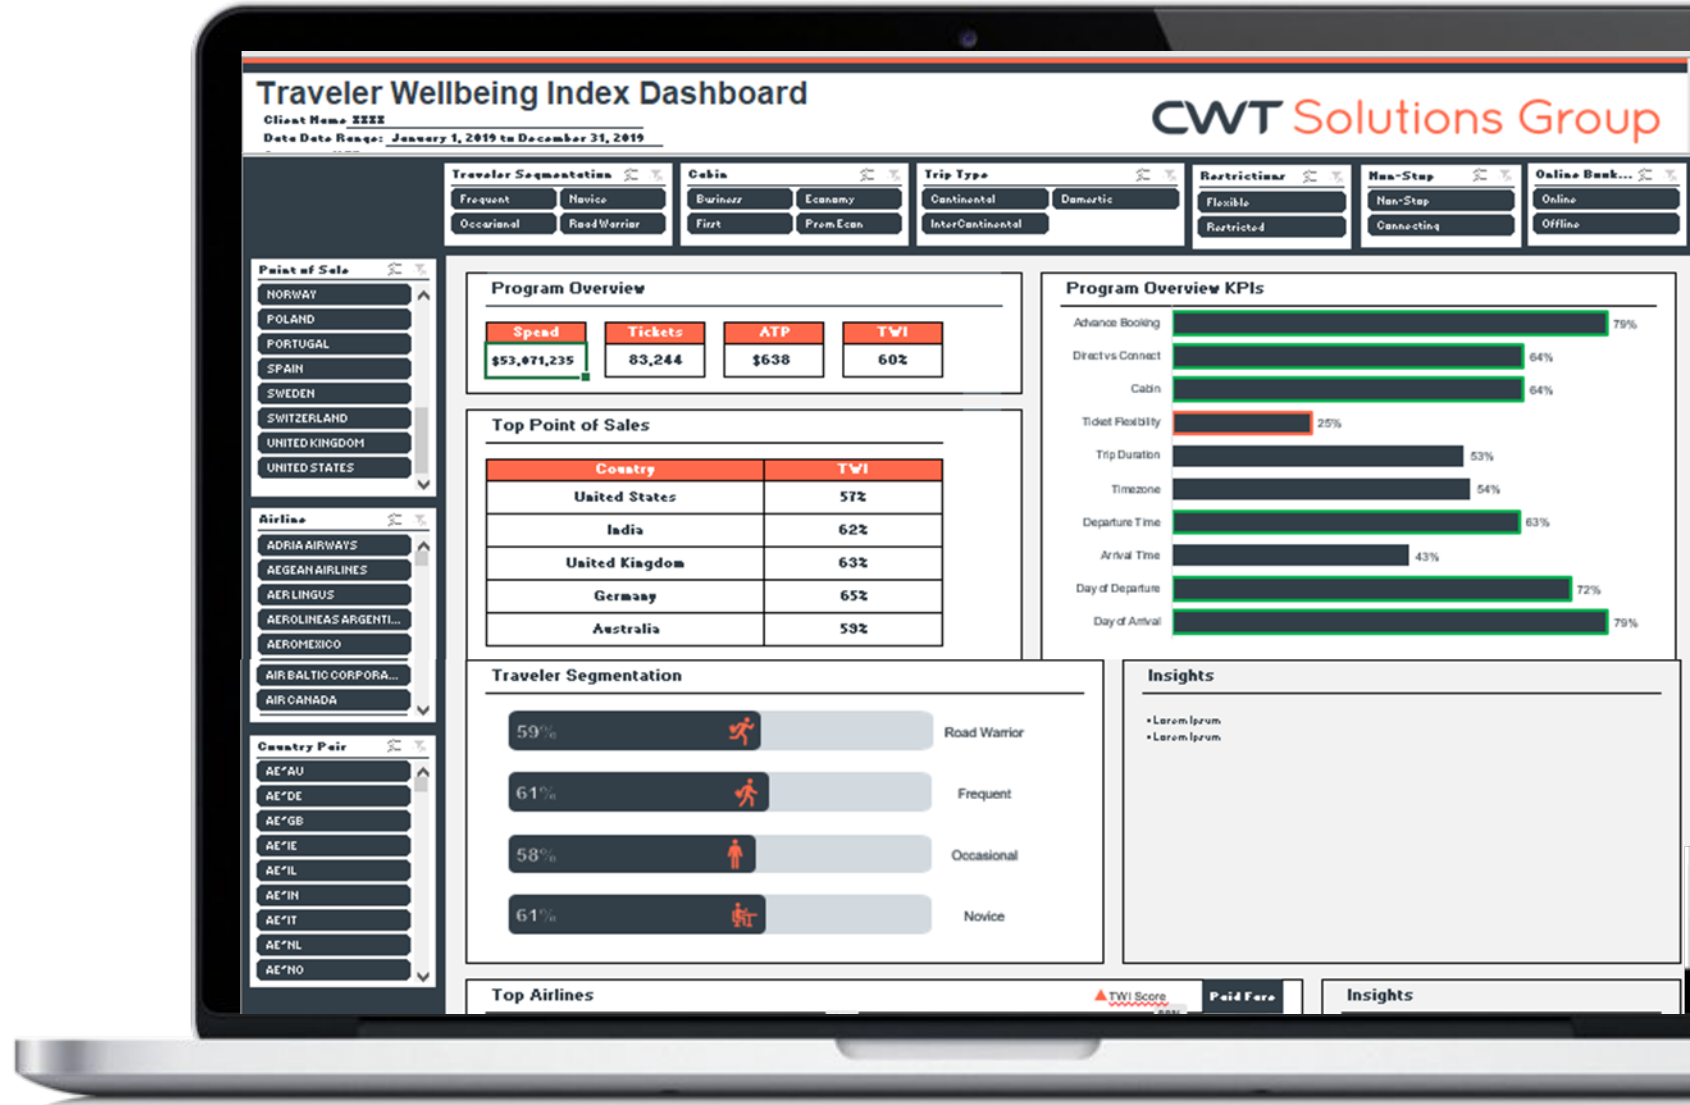

**11 wellness indicators** evaluated and scored per trip

Methodology **custom configured** to clients' policy and definitions

# Traveler Wellbeing Index

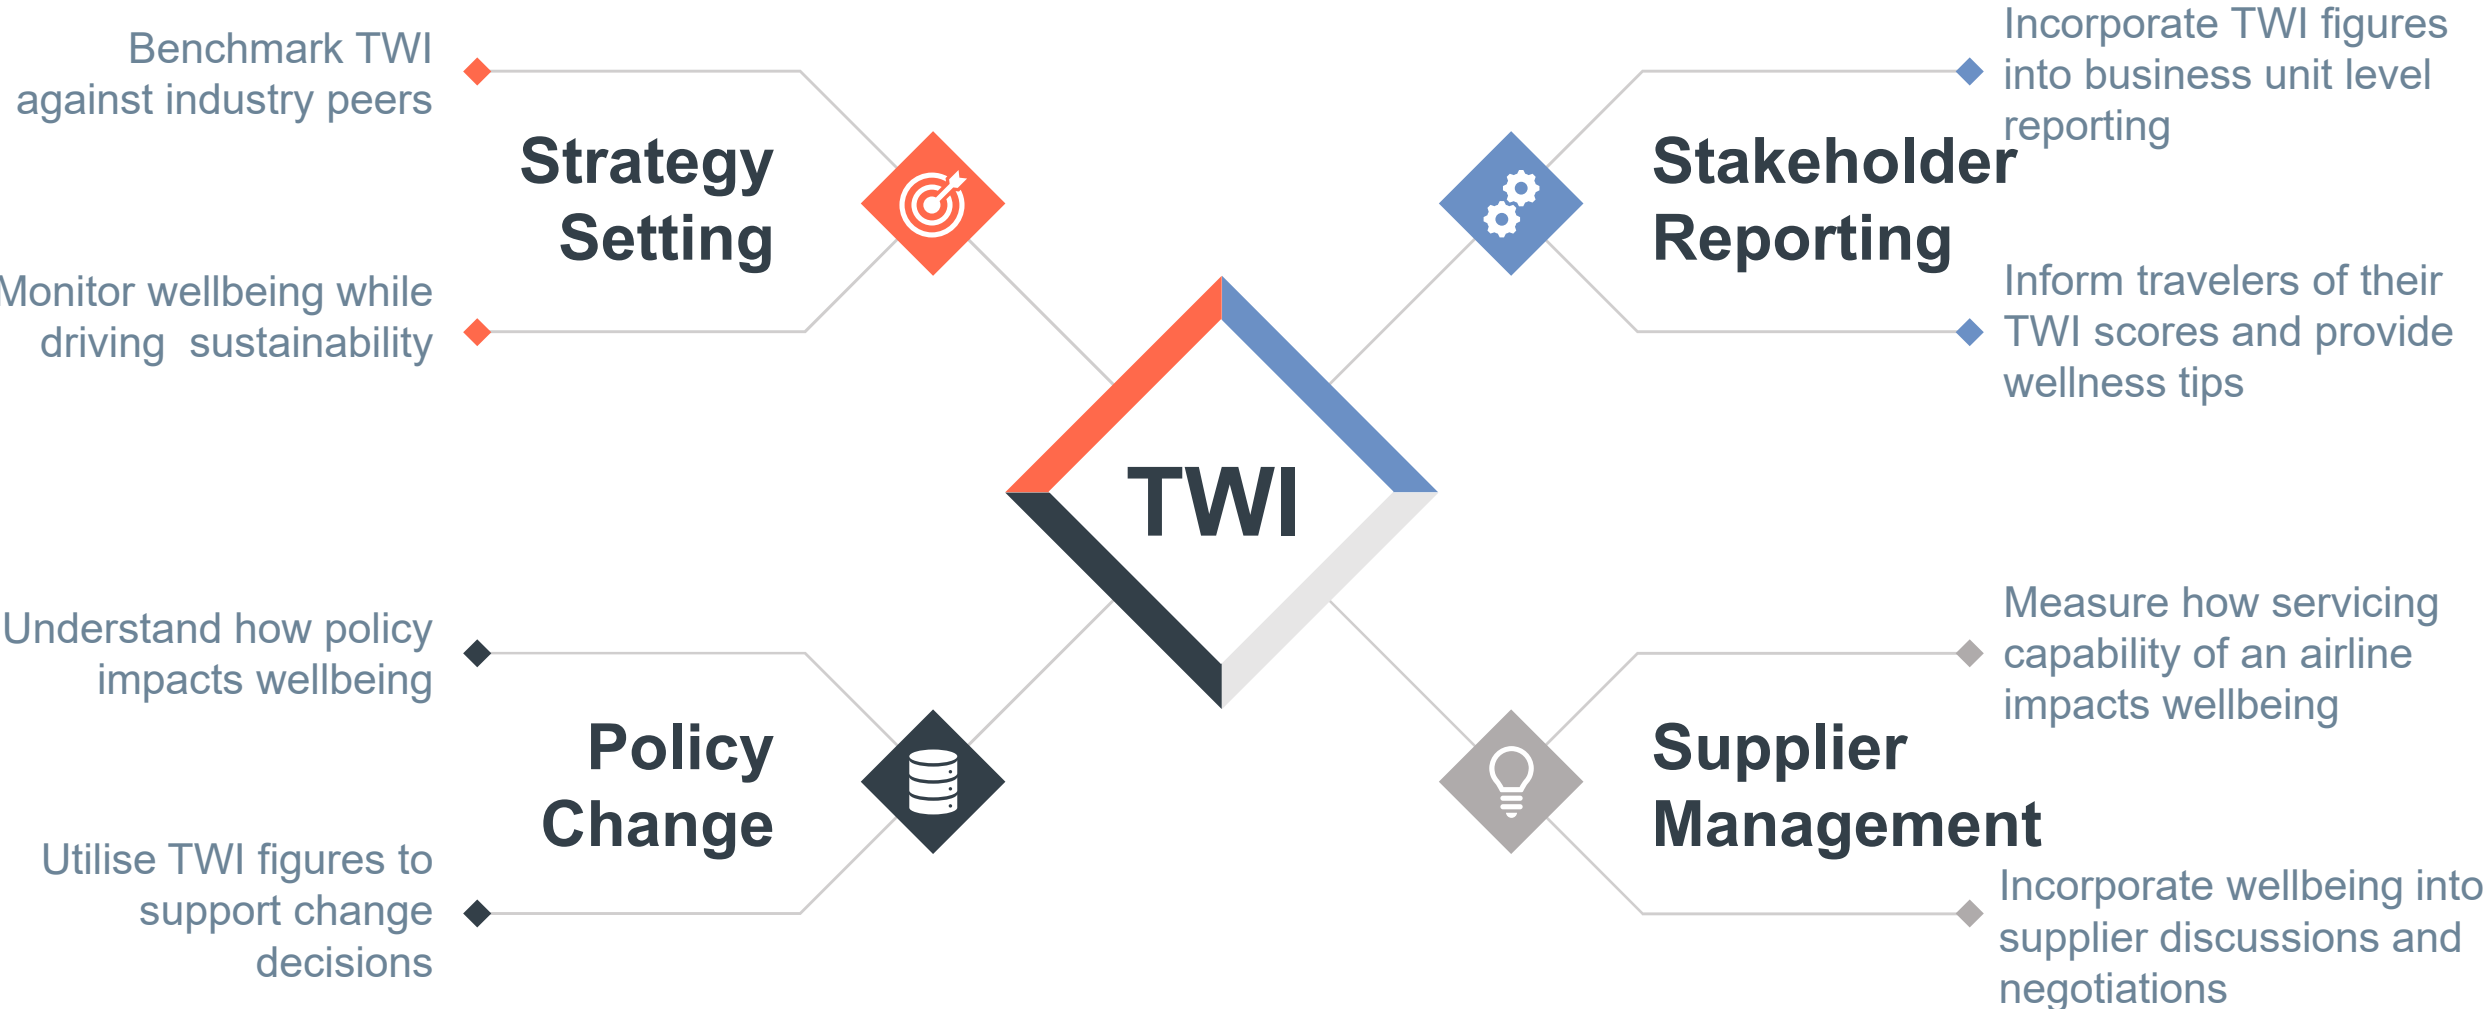

## Dashboard deliverable

- TWI scores presented at point-of sale country, business unit, supplier and traveler level
- Industry level benchmark provided to measure against peer group
- Flag risk, shape policy, develop a traveler focused KPI
- Insights and recommendations provided by consultants

# Traveler Wellbeing Index

*Integration into consulting deliveries*
