Technical assistance/troubleshooting

Overview

myCWT is the highest-rated platform of its kind. Offering an experience for the consumer without the risks sometimes associated with consumer-driven and third-party technology. It’s the platform solution to enhance productivity while providing real-time trip updates.

The platform lets users search and book hotels and flights fast, as well as get updates and alerts on travel itineraries or changing plans. It also syncs with the employees’ work schedules, giving them the travel information they need, when they need it, so they can stay focused on their jobs.

General Information

How much does myCWT cost?
myCWT mobile is complimentary to CWT clients and their travelers.
myCWT is included as a part of each client’s agreement with CWT. It is part of the core travel management services CWT has to offer.

Is myCWT available on my device?
myCWT web is available in the following browser: Chrome, IE9 +, Firefox and Safari
myCWT mobile is available on these device platforms:

• Android.
  • All devices with OS 4.4 and above

• iPhone, iPod Touch and iPad
  • All devices with iOS 9, 10, 11
Is myCWT available in my preferred language?

myCWT mobile is available in English for all devices. It’s also offered in French, German, Italian and Spanish for Android, iPhone, iPod Touch and iPad devices.

myCWT web is available in languages: English (United States, U.K. and Canada), Danish, Dutch, Finnish, French (France, Canada), German, Italian, Norwegian, Portuguese (Brazil), Russian, Spanish (Spain, Latin America), Swedish.

How do I access to myCWT?

For web, please contact your travel arranger to understand if you have access to it or go directly to myCWT.com.

For the app version, click here for Android, or here for iPhone/iPad, to go directly to the relevant device’s app store. You must have data enabled on your smart device and a valid account with your respective app store to download and use the application.

SSO (Single Sign On): If your company have this option, you can access your myCWT account using the same sign in credentials you have for your company’s account.

Registration and log-in

How do I access myCWT?

Step 1: choose your registration path Desktop (1) or mobile (2)

What is a CWT account?

For those non SSO (single sign-on) users who already access myCWT web with an email address as their user ID and a password, their myCWT credentials are also their CWT account credentials. With a CWT account, users have the same login details to access myCWT, making it easier to manage their travel. For SSO users, they will be automatically logged in.

What if I don’t have myCWT credentials (and, therefore, a CWT account)?

If you do not have myCWT credentials established, you will follow a simple self-registration process within the application or the website to establish your CWT account. Simply enter your work email address, and the platform will walk you through the steps.

I am not sure if I have myCWT credentials (and, therefore, a CWT account). What do I do?

Enter your work email address in the appropriate field and the platform will direct you through the registration process step by step.
myCWT mobile and web

Features

Are the same features available on all devices?
No, some features may vary depending on your device and between myCWT website and mobile.

Portrait

What is Portrait?
Portrait is your profile on myCWT, you can access it from the top right corner on the website, by pressing on: “my travel profile” or from the profile section on the mobile application.
It includes all the details about you, your passport details, credit cards numbers, your loyalty card numbers…
You can only edit your full profile from the myCWT website, and some parts can be edited from the mobile application.

What can be edited from the myCWT mobile application?
All your details can be edited from the mobile application, except the “Traveler information” which consists about your general details such as name, family name, date of birth…

Itineraries

I booked a trip through my company’s online booking tool or CWT travel counselor. Will my reservation sync with myCWT?
Yes, your trip details (air, hotel, rental car, etc.) will automatically sync with myCWT and you will be able to view and manage them as one master trip, whether you book online using your online booking tool or offline through your CWT travel counselor.

How long will it take for a newly booked CWT reservation to synchronize in myCWT?
Your trip information may take up to 30 minutes to sync to the application.

Are rail itineraries available in myCWT?
Yes, rail itineraries are available in myCWT web and mobile. Depending on the way the rail booking is processed, it may or may not sync automatically. If your rail itinerary did not sync automatically with myCWT, email your confirmation to plans@myCWT.com to have it added. You may also add the details manually on Android, and iOS devices.

How do I add my non-CWT booked reservations/itineraries to myCWT?
On all devices, you can forward your non-CWT itinerary from the same email address that you use to access myCWT to plans@myCWT.com. Your trip reservation(s) will be automatically loaded into your application, and you will receive an email confirmation upon successful upload of the information. Android, and iPhone/iPad users also have the option of adding trip details to the app manually.

Back to Categories
I sent my non-CWT booked itinerary to plans@myCWT.com, but it does not appear in myCWT. Why?
You must send your itinerary confirmation from the same email address you use to access myCWT. In
addition, the travel confirmation must be from a supported travel provider.

I received a confirmation saying my reservations were successfully added, but I cannot find them in
myCWT. How do I get the itineraries to display?
myCWT web works like any webpage -> click on the “my trips” tab to refresh the page.
On Android and iPhone devices, initiate a manual sync on your device by tapping the sync button at the top
right in the “My Trips” menu of the application. (The sync button is represented by two arrows in a circle on
Android devices and one circular arrow on iPhone.) On iPad, drag down the “My Trips” menu to sync.

In my list of upcoming trips, why does the trip name differ from my destination city?
The “Trip to” name comes from the city where the traveler stays the longest, which typically corresponds to
the address of the traveler’s hotel. That said, Android, iPhone and iPad users easily can change the “Trip to”
name using the app’s edit trip feature. Editing the trip location on mobile will reflect on web. Travelers who
are not mobile users cannot edit the name on web.

My travel provider is supported, but the confirmation email is being rejected. Why?
Please make sure:
• You forward the confirmation email as is. Do not alter it in any way.
• The subject and content of the email are in its original format.
  • If your email program automatically adds the “FW” prefix in the subject line, it is okay.
• If the mailing program allows it, forward the email in HTML format, rather than plain text.
• Make sure the text of the original email is in the body of the forwarded email and is not sent as an attachment.

Mobile check-in

How do I check in for my flight and get my paperless boarding pass?
Based on your itinerary information, myCWT determines whether online check-in and paperless boarding
passes are available. When you click to check-in, the application connects you to your airline’s mobile
website to complete the process.

How many airlines are available for mobile check-in?
There are more than 250 airlines worldwide offering mobile check-in.

Is mobile check-in available on all devices?
Mobile check-in is available on all devices.

Will I receive a notification about my check-in time?
If push notifications are activated on your mobile for myCWT, you will receive an alert when the online check-in is
available for your flight. This is only relevant for airlines that have this option available.

Calendar sync

Calendar sync is only available through mobile on Android, iOS devices. Exporting trips from mobile will
reflect in the traveler’s calendar. Importing calendar’s itinerary through mobile will reflect on web.
How do I turn on the calendar sync feature of myCWT?
Within the myCWT app, please do the following:

- **For iOS devices (iPhone/iPad):**
  - Go to Tools > Settings.
  - Scroll down and tap “calendar sync.”
  - Turn on “sync trips to calendar.”
  - Select a calendar to sync the trips to from the list displayed.

- **For Android devices:**
  - Push the menu button on your phone, and select “settings.” (Or, go to the “General” screen and tap “settings.”)
  - Tap “calendar sync.”
  - Tap the box next to “sync trips to calendar” to check it.

Calendar synchronization is on. Why didn’t my myCWT trip details immediately synchronize in my calendar?
When a trip is added to myCWT, there may be a delay seeing the details in your calendar. This is due to the synchronization settings on your device, which differ for each device type and user.

I’m an iPhone/iPad/iPod Touch user. Why did I receive a message requesting permission for myCWT to access my calendar?
Apple offers a feature that provides users control over apps accessing private information, such as calendars. After enabling calendar sync for the first time, you will receive a pop-up message to grant the myCWT app permission to access your calendar. You can change your permission setting on the device by going to Settings > Privacy > Calendars.

Hotel booking

On which devices is hotel booking available?
Hotel booking is available on myCWT mobile on iPhone, iPad, and Android smartphones and on myCWT website via myCWT Express hotel.

Why am I not seeing hotel booking options on myCWT?
Hotel booking is a client policy setup item; please speak with your Travel Manager to enable hotel booking. In some cases, you may be in a country which doesn’t yet offer the mobile hotel booking option.

What criteria can I use when searching for hotels?
You can search for hotels using your device’s current location, a city name, airport, landmark or address. Searching by address will ensure that only hotels close to that location are shown.

Will my company’s preferred hotel rates be available in hotel booking?
Yes, clients’ preferred hotels will be available and prioritized in the search results.

Will myCWT advise me if a hotel is over my company’s nightly cost allowance?
Yes. In the results page, myCWT will call out which hotels exceed your company’s spend policy.

Do I need to update or download a new version of myCWT mobile to begin using hotel booking?
You do not have to update or download a new version as long as you are currently using the latest version of myCWT app. To validate which version is in use, go to your device’s app store.

Will hotels booked on myCWT appear in my online booking tool (OBT) trip library?
Viewing your hotel bookings made on myCWT in your trip library on your OBT may vary on your company’s
setup. If you are able to view Travel Counselor reservations on your OBT, you will also be able to see your mobile hotel bookings on your OBT.

**Can all hotel reservations be cancelled in myCWT?**
You are only able to cancel the hotel bookings that were made via myCWT. All other hotel bookings must be cancelled with a counselor or online booking tool. You can connect directly with your travel counselor.

**Flight booking**

**Is Flight Booking available on myCWT?**
Flight booking is only currently on myCWT mobile, the functionality is turned off by default.

**What functionalities are available now?**
You can book only round trip for the time being in Economy and Business. You also have access to your own client and CWT negotiated fares as well as policy guideline reminders. Enjoy access to our “Best Time to Buy” indicator, too – which shows how much the fare is likely to increase by if you delay booking early. Product is available on IOS & Android.

**In which countries is flight booking available now?**
Flight booking will initially be available in 19 markets, including Australia, Austria, Belgium, Brazil, Canada, Denmark, France, Germany, Hong Kong, Ireland, Italy, Luxemburg, Netherlands, Poland, Spain, Sweden, Switzerland, the US and the UK. Spain, Germany, Italy, Switzerland, Brazil and Australia. With plans to extend this out to additional markets in 2019.

**Are Low-cost carriers content available on myCWT?**
Yes, for enabled clients.

**Will my air loyalty program(s) be taken into account?**
Yes, in case the traveler has updated the info in the profile on portrait.

**Can I cancel or modify a flight booking on myCWT?**
You can’t change or modify a flight booking on myCWT just yet. This is on our future roadmap. In the interim, please contact your local Traveler Services Center for trip amendments.

**How can I access flight booking?**
If you are interested in myCWT Flight Booking, please contact your CWT representative.

**Travel arranger feature**

**How will the application identify me as a travel arranger?**
Anyone that is configured as an arranger in their myCWT profile is able to use the Travel Arranger Trip Monitor view.

**How many travelers can I view on the travel arranger dashboard?**
Up to 25 travelers will appear on the dashboard. The system displays the first 25 travelers that are received.

**Can I reorder the list of travelers?**
No. The order of travelers is determined by the date the traveler arranger was associated to the traveler in myCWT. The order is from oldest to most recent.

**Are my travelers’ trips automatically synced to the Travel Arranger Trip Monitor?**
Yes, trips booked via CWT will automatically sync to the Travel Arranger Trip Monitor. Should you need
to add a non-CWT booked itinerary to a traveler’s trip in myCWT, you may forward the itinerary from your email address to your traveler with a cc to plans@mycwt.com.

Will a traveler appear in the dashboard even if he/she is not using myCWT?
Yes, travelers using myCWT, as well as those that are not, will appear in the dashboard. For those that are not, you may use the SMS feature to send a message to

Can I sync my travelers’ trips to my calendar?
No, the ability to sync your travelers’ trips to your calendar is not currently available, but you can view them in the Trip Monitor View.

Can I synchronize my traveler’s trips to their calendar, if the traveler is not a myCWT user?
No, the traveler must be a myCWT user for their trips to sync to their calendar. You can use the SMS feature to send their traveler a recommendation to use the app.

Can I book hotels for my travelers?
Yes, if you are using the app on an iPhone and your company has enabled hotel booking in the app.

Can I book flights for my travelers?
No, this feature is currently not available in the myCWT Travel Arranger feature.

Other features

What are CWT Alerts?
There are two types of CWT Alerts:
- The trips alerts:
  You could get an alert on myCWT mobile to inform you of anything that may be related to your trip: gate number, gate change (if applicable by the airline), flight delay, online check-in...

- CWT Alerts (Safety and Security):
  Another type of alerts available on both mobile and web, would be the CWT Alerts (Safety & Security Alerts) which helps you know of any events in your area that might affect your trip or pose a health threat on you.

Does myCWT hold my loyalty numbers?
Your air, car, hotel and rail loyalty numbers that are housed in your traveler profile will appear in the app in the My Travel Profile section.

Is my credit card number in the app?
Your payment cards from your traveler profile are listed with only the last four digits of the number appearing.

Can I edit my traveler profile in myCWT?
The ability to edit your traveler profile within the app depends on how your company’s specific setup within CWT’s traveler profile tool.

Does the flight schedule feature display low-cost carriers?
OAG, an aviation intelligence company, provides the flight schedule information. If the low-cost carrier provides flight schedule information to OAG, it will likely appear within the search results.

Who supplies the information for the travel alerts?
FlightStats, a leading provider of day-of-travel data services to the travel industry and traveling public, supplies all flight data information for the travel alerts that are pushed to your smart device. CWT encourages travelers to continue to check with their airline carrier for updated information.

Who supplies the airport maps shown within myCWT mobile?
Airport map are provided by HERE.
How many airports are accessible via myCWT mobile?
Over 350 airports maps worldwide.

Technical assistance / Troubleshooting

I’m using myCWT for the first time. Why can’t I see my upcoming trips?
Upon accessing the app for the first time, it may take up to 30 minutes for upcoming trips to synchronize. The amount of time depends on the number of reservations per user. After 30 minutes, you may need to initiate a manual sync on your device.

Why is my completed trip still showing in the upcoming trips section of the app?
A trip moves to the past trips section approximately one full day after the last day of the trip. For example, if your trip ended on June 20, it will move to past trips on June 22.

Why didn’t I receive my flight notification on myCWT mobile?
Flight update notifications start 48 hours before the flight’s departure time. Please ensure notifications are turned on within the app.

- For iOS devices (iPhone/iPad):
  - Go to Settings > Notifications > locate myCWT and tap on it.
- Ensure Allow Notifications is enabled:
  - Enable and set one or more of the following to on:
    - Show in Notification Center.
    - Alert style (select banners or alerts).
    - Badge app icon.
    - Sounds.
    - View in lock screen.
- For Android, BlackBerry 10 devices:
  - To enable flight notifications, tap “Travel Notifications” from the “General” screen of the myCWT application.
    - Verify the following settings under the “Flight Notification” heading:
      - Notification display: Enabled.
      - Time before flight: Choose number of hours before flight.
      - Notification sound: On.
    - To receive an audio alert:
      - Verify that the box next to “Audio flight alert” is checked. If the box is empty, tap on it one time to check the box.

Flight notifications are enabled. Why am I not receiving alerts?
If flight data is missing or late, it is probably due to one of the following reasons:

- Airlines occasionally provide data on their respective websites but not to the flight-tracking industry.
- Some airlines do not provide actual gate departure or arrival times.
- Some airlines do not share their data.
- Budget and charter airlines tend not to share data or only share limited data, so the flight may not be listed until near the departure time.
- Some airlines—particularly carriers outside the U.S.—do not share any gate data with the flight-tracking industry.
- Gates and terminals often are not provided until approximately 60 minutes prior to departure.
- If you encounter longer delays or inaccurate information, please email us and include the following:
  - Airline, flight number and departure date.
  - The information that you expected to see.
  - The information that the app displayed.
Where can I get additional technical support and assistance?
Please refer to the list below and submit an email to the Technical Service Center for your country or region. You may also tap on the “Support and Feedback” to send feedback from the app.
