CERTAIN STT AND RIDTT INFORMATION

*0 Standard Transfer Terms Modules below collectively STT

*1 In addition to module STT, the terms of which are of general application to data transfers, CWT implements legally compliant data transfer mechanisms provided or imposed by Data Protection Regulators where required or relevant to ensure appropriate legal safeguards for particular types of data transfers

*2 All Restricted International Intragroup Transfer Terms Modules collectively RIIDTT

*3 Transfer mechanism applied to transfers of personal data of data subjects from regulatory regime as relevant

*4 In relevant circumstances mandated by regulator

*5 Relevant where EUSCC used

*6 Where suitable or specified to legalize data transfers, see ITC for further details

CONTRACT FORMATION, APPROVAL CONFIRMATION & INCORPORATION OF TERMS

CWT IGA Co-ordinating Company agrees with one or more CWT Acceding Companies that terms of modules available on links specified in this module are incorporated into one or more IGA Accession Agreements (IAA) as if included in hard copy.

Multiple Data Transfers, International Data Transfers and Multiple Data Transfer Mechanisms from Data Protection Regulators may be adopted, documented and implemented as part of the IGA as further detailed in ITC and on the relevant link above. CWT Acceding Company hereby agrees to undertake all specified responsibilities as Data Exporter or Data in each case, including in relation to RIIDTT.

Where modules and data transfer mechanisms are updated latest module content will apply from the effective date specified or, in the case of automatic updates, the date of such update.
