July 2024

© CWT 2024

## 1 Introduction

CWT is committed to operating to the highest business standards and conducting business in an honest, transparent, and fair manner. CWT expects our Supplier's (as defined below) business activities to be carried out to the same high standards.

This document's main objective is to enable each Supplier to understand and confirm support, commitment, and adherence to CWT's ESG standards as set out below. CWT will assess, review, and update the content of the Supplier Code on a regular basis.

As a signatory of the [UN Global Compact](#), CWT actively promotes ethical, social, environmental, and human rights best practices within its own business and throughout its supply chain.

CWT seeks relationships with Suppliers that are committed to manufacturing products and providing services under fair and safe labor conditions, sound environmental practices and ethical business practices.

CWT expects our Suppliers to commit in all their activities, to operate in full compliance with the laws, rules, and regulations that apply to them. Beyond mere regulatory compliance, this Responsible Supplier Code (hereinafter referred to as "**Supplier Code**") goes further, drawing upon internationally recognized standards to advance social and environmental responsibility.

For the purposes of this Supplier Code, the "**Supplier**" is the entity set forth below on the signature page (or entity mentioned in the main contract where this Supplier Code is included as part of an overall contract), and this includes all its group companies and Affiliates. "**Affiliates**" shall mean, any company or other legal entity which directly or indirectly: (i) controls the Supplier; or (ii) is controlled by the Supplier; or (iii) is by a company or entity which directly or indirectly controls the Supplier. For these purposes, "control" means the right to exercise more than fifty percent (50%) of the voting or similar right of ownership or operational control; but only for so long as such "control" shall continue to exist.

In consideration of CWT doing business with the Supplier, the Supplier hereby agrees to abide by this Supplier Code. If there is an inconsistency between this Supplier Code and the main contractual terms entered between the Supplier and CWT, the terms of this Supplier Code will prevail.

Any potential conflict between private and professional interests must be avoided, and all Suppliers shall notify CWT personnel of any perceived or real conflict of interest with CWT.

CWT will refuse all gifts and hospitality that are not reasonable, transparent, appropriate, and consistent with CWT's business practice.
